DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 29 and 36-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 29 sets forth an improper Markush recitation. Claim 36 – “the electrosurgical probe” lacks antecedent basis. Claims 37-38 – “distal end” per se lacks antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 26 and 28-31 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Manwaring (5,122,138). The size limitation is disclosed at column 5, lines 23-26.

Claims 26 and 29 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Abele (5,860,974).

Art Unit: 3739

Claims 26, 29, 40, and 41 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Lax et al (5,569,242).

Claims 26, 27, 29-31, 33, 38, 40, and 41 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Baker (5,514,130). The size limitation is disclosed at column 6, lines 47-48.

Claims 26-31 and 37-39 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Edwards (5,800,429). The size limitation is disclosed at column 8, lines 27-28.

Claims 26, 29, 32, 33, 36, 40, and 41 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Goble et al (5,944,715).

Allowable Subject Matter

Claims 34 and 35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Goble et al discloses a similar device.
